

A major player in the Electronics industry with a core strategic focus on Retail, Distribution, Service, Manufacturing and Project Business with the mission to provide world-class brands and quality products with superior service to consumers in Bangladesh.

CHALLENGE

- Multiple Legacy System for different strategic aspects
- Lack of Preservation of Historical Data
- Lack of Inventory Tracking & Current Stock Checking
- No Real Time Data Extraction was possible

SOLUTION

- Whole Integrated & Single Solution to cover up all the strategic aspects
- A System with unified real time data well preserved along with every Historical Transaction Record.
- A total solution of Inventory Control with top level transparency and traceability.

RESULT

- Increase in Efficiency
- Increase Control Over Inventory & Stock Management
- Ensure systematic workflows, processes and collaborations that lead to better customer experiences.
